12/31/13

Dear Marie,

Conflict Minerals Compliance

We are writing in response to your email dated 12/23/13 concerning the SEC's new Conflict Minerals Rule.

As you are aware, the Conflict Minerals Rule was adopted on August 22, 2012 and took effect on January 1, 2013. Since the adoption of the Rule, we have been focused on fulfilling our compliance obligations in addition to providing our direct and indirect public company customer with the information that they require for the purposes of preparing their first Form SD to be filed under the Rule.

Some of the steps we have taken to ensure compliance since the adoption of the Rule include:

- i) designating an internal compliance team;
- ii) hiring specialist outside counsel to advise on the Rule;
- iii) conducting internal training sessions;
- iv) developing forms of supplier questionnaires and certifications; and
- v) commencing diligence as contemplated by the Rule.

Rest assured that we are committed to fully complying with our obligations under the Rule and to providing our customers on a timely basis with the information that they will need to satisfy their reporting obligations, and we will follow up with you as soon as practicable concerning conflict minerals usage (if any) in our products. In the meantime, please do not hesitate to contact the undersigned with any further inquiries.

Yours Sincerely,
Mark H. Fallet
Customer Service Manager
